

Demonstration of Proposed Features

Date	15 March 2026
Team ID	XXXXXX
Project Name	Smart Lender-Applicant Credibility Prediction for Loan ApprovalDXdcfcse
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document presents the proposed features of the **Smart Lender** project and their implementation status. It serves as evidence that the system requirements have been successfully developed, tested, and demonstrated. The Smart Lender platform provides an AI-powered loan recommendation and eligibility prediction system that helps users identify suitable loan options, estimate approval chances, and receive personalized financial guidance based on their profile

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Registration & Login	Secure user authentication for accessing the Smart Lender platform.	Implemented	Yes	Successfully tested
2	Loan Eligibility Prediction	Predicts whether a user is eligible for a loan using Machine Learning models.	Implemented	Yes	Accurate predictions generated
3	Personalized Loan Recommendation	Recommends suitable loan products based on user profile, income, and credit details.	Implemented	Yes	Personalized recommendations provided
4	AI Financial Assistant	AI chatbot that answers loan-related queries and guides users through the application process.	Implemented	Yes	Interactive chatbot demonstrated
5	Loan EMI Calculator	Calculates monthly EMI, interest amount, and repayment schedule.	Implemented	Yes	Real-time calculations verified
6	Loan Application Dashboard	Displays application history, loan status, and recommendation results in one dashboard.	Implemented	Yes	Dashboard functioning correctly

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
